About First Cobalt

First Cobalt owns the only permitted primary cobalt refinery in North America. The Company is advancing a feasibility study on an expansion to its Canadian cobalt refinery under a long-term supply arrangement with Glencore AG. First Cobalt’s main cobalt project is the Iron Creek Cobalt Project in Idaho, USA, which has an inferred mineral resource estimate available on the Company’s website. The Company also controls a significant land package in the Canadian Cobalt Camp, spanning over 100 km² which contains more than 50 past producing mines.

On behalf of First Cobalt Corp.

Trent Mell
President & Chief Executive Officer
